Why you should register —

Benchmarking is a powerful management tool that can support financial survival and clinical excellence in these challenging economic times. In this seminar, you will learn how to gather and use benchmarking data to identify organizational strengths and opportunities for improvement. The seminar will cover benchmarking concepts and practices along with the AABH benchmarking resources that are available to leaders of partial hospitalization and intensive outpatient programs. Benchmarking can bring new meaning to your performance data and there has never been a more opportune time to learn about its potential benefits.

Please note: You may have more than one person participate on your telephone line, but each telephone line that calls in is to be registered at the registration fee.

CEUs are available for LPC, LMFT, LMSW, LCSW
